**Duties:** You will serve as either an Operations Support Command (OSC) Systems Manager or as a Tobyhanna Army Depot Program (TYAD) Manager for high visibility/high priority mission projects chartered by the TYAD Commander. You will ensure the successful completion of repair and overhaul efforts of complex electronics-communications equipment/systems as well as new systems development and fabrication projects. You will be expected to manage the programs/projects that require planning, directing, evaluating, and coordinating logistical actions to support the life cycle management of complex electronics-communications equipment during manufacture and initial fielding; represent TYAD at conferences, meetings, and in personal contact with responsible officials of command level, other agencies, and contractors; manage, direct, coordinate and monitor the development of integrated logistics requirements for communications-electronics systems and/or other projects assigned to TYAD.

**About the Position:** POSITION WILL BE FILLED ON A TEMPORARY BASIS NTE 2 YEARS. SEE THE "OTHER INFORMATION" SECTION FOR ADDITIONAL INFORMATION. The Forward Repair Activity (FRA) Fort Lewis is a facility that performs on-post repair of Standard Army Management Information System (STAMIS) computer and related peripherals. This FRA is part of Tobyhanna Army Depot (TYAD). The TYAD mission includes design, manufacture, repair and overhaul of hundreds of electronic systems for all branches of the Armed Forces. For over 50 years, Tobyhanna personnel have built a tradition of unparalleled customer satisfaction through the delivery of timely, cost-effective, and high-quality products and services. The FRA is located in the Pacific Northwest on Puget Sound, Washington state, and is adjacent to Mc Chord Air Force Base.
